## **DETAILED ACTION**

### ***Remarks***

1. The amendment and response to restriction/election requirement filed on May 14<sup>th</sup>, 2009 is acknowledged. By this amendment, claims 18-20 have been newly added. Accordingly, claims 1-20 are currently pending in this application and claims 1 and 8 are in independent form.
2. Applicants' election with traverse of Group I (Claims 1-14) in the reply filed on May 14<sup>th</sup>, 2009 is acknowledged. The traversal is on the ground(s) that "Applicant respectfully traverses the restriction requirement presented in the instant Office Action because there is no serious burden upon the Examiner if restriction is not required...Accordingly, the restriction requirement presented in the instant Office Action is improper and claims 1-17 should continue to be examined together". This is found persuasive and therefore the restriction mailed on April 17<sup>th</sup>, 2009 is hereby withdrawn. Accordingly, claims 1-20 are being examined altogether in the application.

### ***Allowable Subject Matter***

3. Claims 1-20 are allowed over prior art of record.

### ***Reasons For Allowance***

4. The following is an examiner's statement of reasons for allowance:

After further search and consideration of Applicants' response filed on January 28<sup>th</sup>, 2009 (see Applicants' arguments in Page 6, line 10 to Page 7, line 23 of the January 28<sup>th</sup>, response), it is determined that the prior art of record

Art Unit: 2823

neither anticipates nor renders obvious the claimed subject matter of the instant application as a whole taken alone or in combination, in particular, prior art of record does not teach "introducing in the reactor a first gas stream comprising carrier gas...and using an inert gas as the carrier gas", as recited in independent claim 1.

Claims 2-7 and 13-20 also allowed as being directly or indirectly dependent of the allowed independent base claim 1.

Claims 8-12 are allowed for the same ground that was set forth in Paragraphs 5-7 of the Office Action that was mailed on October 28<sup>th</sup>, 2008.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicants' disclosure.
  - Kim et al. (U.S. Patent 7,312,128) discloses a method of epitaxially forming a silicon-containing material on a substrate surface.
  - Nagasawa et al. (U.S. Patent 7,101,774) discloses a method of manufacturing compound single crystals by epitaxially growing a compound single crystal layer differing from the substrate.

Art Unit: 2823

- Flagan et al. (U.S. Patent 4,642,227) discloses a method and apparatus for producing large particles of material from gas, or gases, containing the material (e.g., silicon from silane).
